

Xtreme 6mm

6mm 144x288 4.5' x 9'

6mm Resolution Module

ThinkSIGN's 6mm has 2.5X more resolution than our 10mm and 8000 NiTs of brightness! Producing the finest on-premise EMC available.

6mm Sign Specifications

Pixel Pitch	6.6mm
Pixel Configuration	SMD
Character Height	1.8"
Module Dimensions	1.5' x 1.5'
Matrix Configuraton	48 x 48 Pixels
LED Lifetime	100,000
Color Capability	2 Trillion
Viewing Angle	140° Horizontal x 70° Vertical
Media Format	JPEG, AVI, BMP
Brightness	8,000 NITS
Power	.046 Watt/Pixel
Communications Operations	4G, Wireless, Ethernet, Fiber

Why ThinkSIGN?

Trusted. Our entire system is UL Listed. We only employ the very best LEDs, components, and hardware for our EMCs.

Easy. Easy to sell, easy to install, use and service. Our signs deliver ready to install and our software requires no training

Fast. We have the ability to design, build, and deliver in 2 weeks! Our proprietary modular design makes assembly much faster. Others can take up to 4x longer.
